

Kansas Department of Health and Environment Bureau of Environmental Remediation

VOLUNTARY CLEANUP & PROPERTY REDEVELOPMENT PROGRAM

Established in 1997, the VCPRP provides a streamlined approach for participants to voluntarily address environmental concerns in order to facilitate the buying, selling, or development of contaminated properties.

As of October 8, 2002, the VCPRP has received 266 applications, conducted 219 investigations, 69 cleanups are underway or completed, and 52 No Further Action letters have been issued.
